

POLITICS 2008

**ISO 9001
ISO 14001
FAMI QS**

Today, our company is ISO-certified 9001 version 2000, ISO 14001 version 2004 and FAMI QS (version 4). The requirements of these standards apply to all activities of extraction of raw materials, treatment and sale of china clays and burnt to ashes china clays.

According to these standards, and in a concern of continuous improvement, we make a commitment in a initiative of progress to integrate our systems to evolve towards more efficiency, with the aim of satisfying always better our customers and of ensured our environmental initiative while increasing our economic performance.

Our general objectives for year 2008 are the following ones :

- Develop the dialogue with our customers and our suppliers,
- Improve the knowledge of our products,
- Develop our tool of production for more performance while preventing and by considering any pollutions resulting from all activities, products and services,
- Follow and develop the skills of our staff,
- To respect and to anticipate legislations and regulations in force applicable to the activities, the products and the services relative to the environmental aspects, to the quality produces and the security of the possessions and the persons,
- To pursue our initiative of integration of our systems Quality, Environment and FAMI QS,
- To integrate into our system the new products stemming from our subsidiaries.

The present politics is presented and diffused to the entire staff, suppliers and traitants sous and, the progress realized in the implemented of the principles and the actions defined will be estimated in a periodic way.

In this purpose, I named Charlotte DUROSINI as Person in charge Quality Safety environment, which has delegation to manage the spread systems of management.

As Managing of the company SOKA, I make a commitment to maintain the Quality environment systems and HACCP and to make succeed the found objectives.

Saint Brieuc, le 14 AVRIL 2008
